

# SAUL DOMINGUEZ

## PRODUCT ENGINEER

Seville, Spain | saulydominguez@gmail.com | www.sauldom.dev

---

### SUMMARY

---

Software Engineer with a very user-focused product mindset. I have over 5 years of experience in cross-platform mobile app development using React Native and frontend development using React.

### PROFESSIONAL EXPERIENCE

---

#### Z1 Digital Studio

Oct 2019 - May 2023

- Building Android and iOS MVP apps from scratch for US-based companies mainly.
- Had a crucial role not only to apply but also to spread good code practices in my team, contributing to deliver high-performant apps.
- Contributed to product decisions in the early stages of diverse products spanning social gifting, social commerce, crypto investing, and crypto learning.

#### Factorial HR

May 2023 - Present

- Played a key role in enhancing performance and refactoring the mobile app by migrating the data layer from REST and MobX to Apollo GraphQL.
- Provided mentorship to members of other web teams internally, guiding them on developing in the mobile app using React Native.
- Engaged actively in a cross-functional team dedicated to creating a design system and standardizing the overall user experience on the web platform.
- Conducted end-to-end testing with Cypress and unit testing using Jest.
- Managed error observability through Sentry.
- Utilized Amplitude as an analytics tool to track the impact of the features I developed and launched.

### IN MY TOOLKIT

---

Typescript  
GraphQL

React / React Native / Expo  
Storybook

Tailwind / Nativewind  
Zod

Sentry  
Jest / Cypress

### EDUCATION

---

#### Multiplatform App Development Course

Sep 2017 - Jun 2019

Salesianos Cadiz

- Vocational training consisting of 2 years learning the essentials to build and maintain applications that can run on different types of devices.

### ADDITIONAL INFORMATION

---

- **Languages:** English, Spanish.
- **A little more about me:** I began coding at the age of 15 and have some foundational knowledge of Python. I have some back-end development experience, particularly with Django. I am also interested in web scraping and have done some data processing using pandas. Additionally, I enjoy creating videos with React and Remotion.
